Patient participation is a trend that arose in answer to perceived physician paternalism. However, only rarely can unchecked physician paternalism be justified, and unlimited patient autonomy would presumably be equally abhorrent.

Patient participation - Wikipedia

Catheter-associated urinary tract infection (CAUTI) is widely recognized in the United States as the most common healthcare-associated infection (HAI), representing an estimated 40 percent of all HAIs. 1 CAUTI has been shown to increase patient mortality and morbidity,

Preventing CAUTI: A patient-centered approach

About . The postpartum period is a critical time to ensure women and their newborns are healthy. It is important to closely monitor a womanâ€™s health during this recovery time â€“ especially if she experienced complications during pregnancy or childbirth â€“ as over half of maternal deaths occur during the first days, weeks, and months after childbirth.
