Wikipedia is an encyclopedia: Our encyclopedia combines many features of general and specialized encyclopedias, almanacs, and gazetteers. Wikipedia is not a soapbox, an advertising platform, a vanity press, an experiment in anarchy or democracy, an indiscriminate collection of information, or a web directory. It is not a dictionary, a newspaper, or a collection of source documents, although ...

The principle of The Three Pillars of Sustainability says that for the complete sustainability problem to be solved all three pillars of sustainability must be sustainable. The three pillars are social, environmental, and economic sustainability. The flaw in the Brundtland definition of sustainability arose in a short term effort to make the social pillar stronger as the world's top priority.
