The Age of Intelligent Machines. Kurzweil's first book, The Age of Intelligent Machines was published in 1990. It forecast the demise of the already crumbling Soviet Union due to new technologies such as cellular phones and fax machines disempowering authoritarian governments by removing state control over the flow of information. In 2005, Mikhail Gorbachev told Kurzweil that emerging ...

The Future Is Wild is a British 2002 thirteen-part pseudo-documentary television miniseries. Based on research and interviews with several scientists, the miniseries shows how life could evolve in the future if humans were to disappear from the Earth altogether through extinction. The version broadcast on the Discovery Channel modified this premise, supposing instead that the human species had ...

Intelligence To be intelligent you first have to know what being Intelligent is. And you also have to know what being ignorant is. Ignorant is just another word for "Not knowing". But not knowing is not always obvious or clearly understood. That's because learning is not fully understood. The more you learn the more you should realize what you didn't know.
